with time-honored skill

...Wonderfully Remembered
for your legacy to live on.

Portrait of the Beadles Family, 50 by 36, Emulsion on Canvas

As a parent of four children, Heather Beadles knows all too well that

The days are long but the years are short.

In the blink of an eye our babies are walking, our toddlers are off to school, our high schoolers are getting married, and before we know it the grandkids are coming to visit. Each chapter in our family's life becomes a part of a larger story... our family legacy. At Beadles Portraits we are passionate about telling YOUR family's story.

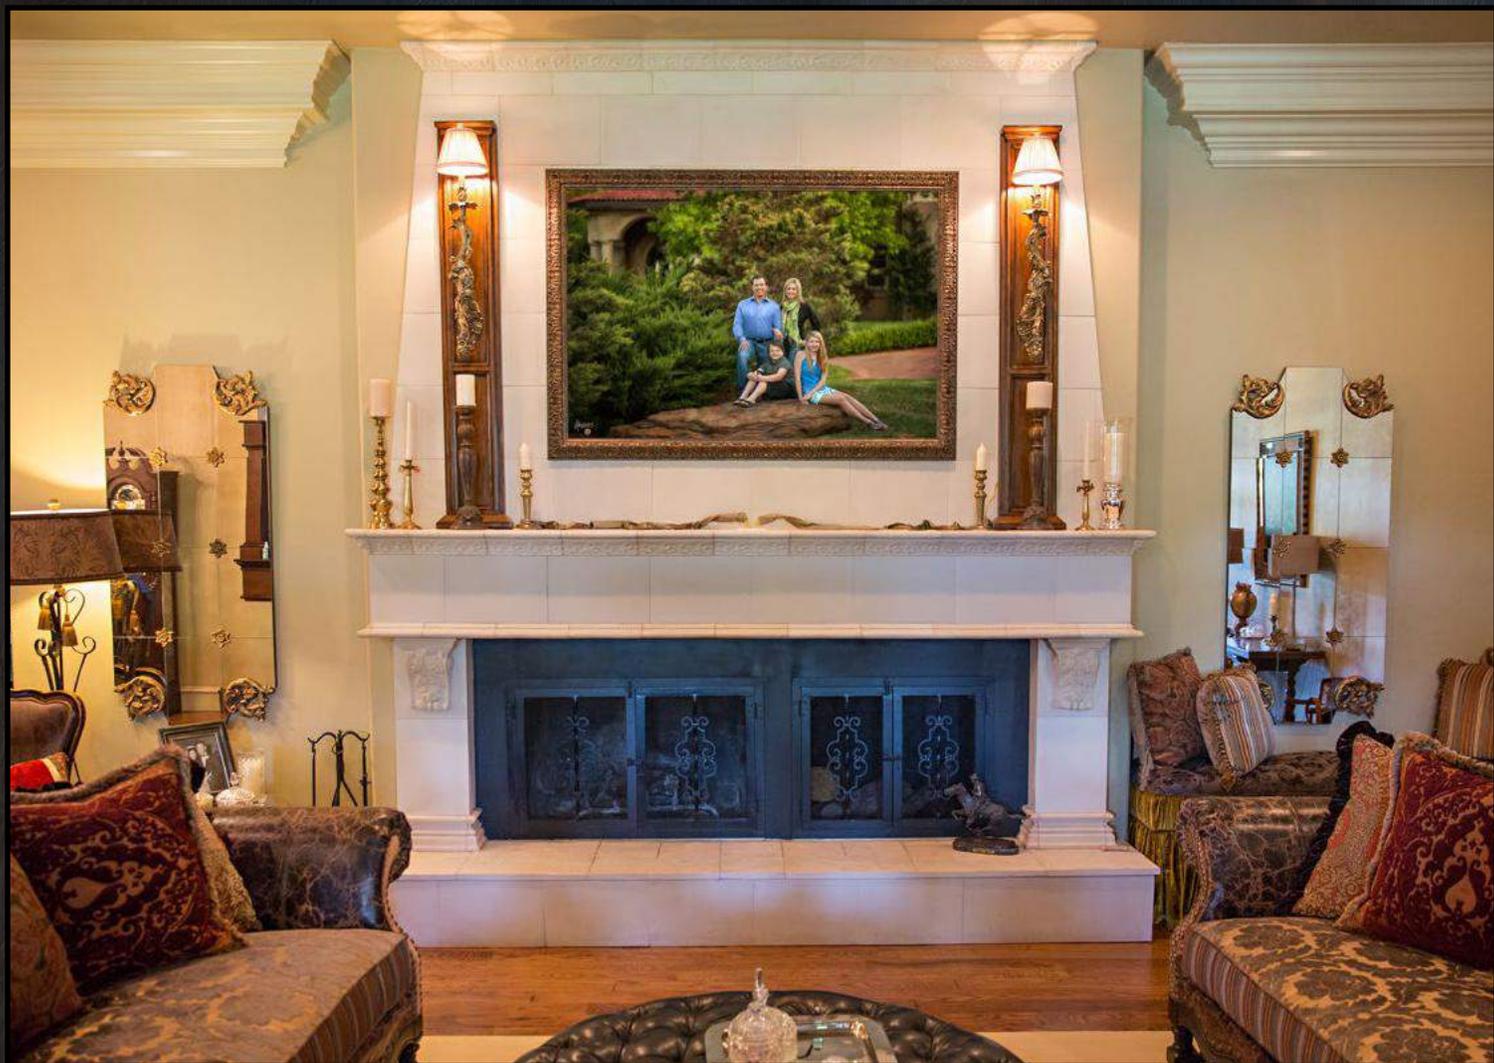

Heather's story includes being the fourth generation to grow up on the family farm which was homesteaded in the Oklahoma Land Run of 1889, as well as being a third generation alumni of Oklahoma State University. This legacy, along with her background in family counseling, have instilled within her a deep affection for capturing the moments and relationships you never want to forget. Her sentimental perspective combined with an exceptional artistic ability and attention to detail uniquely qualify her to create a signature family portrait representing each chapter in your family's story.

Let Heather Beadles create your family's heirloom portraits so the generations that follow can gratefully remember your blessings in life and preserve your family's legacy. After all,

Your Family is Your Masterpiece.

...Perfectly Designed to complement your home.

At Beadles Portraits, we want your Signature Portrait to tell a chapter of your story, reflect your personal style and be a conversation piece on your wall. The personal Design Consultation process ensures our success. Heather takes the time to learn about each member of your family, assist in planning the overall look and feel of your portrait, offer guidance in the selection of clothing and color choices, and help you select the perfect size and finish to enhance your home. The end result is a Beadles Portrait that is perfectly designed to tell your family's story and complement your home.

In the Most Beautiful Homes.

“This year we knew our family would be moving into the next chapter of our lives so we wanted to capture our immediate family one more time. To make it even more special, Heather helped us incorporate our new poolscapes and colors into the design of the portrait. It is the perfect centerpiece of our home and we are thrilled with such a personal work of art for our family!”

Drs. Tom & Robin Hall

...Exceptionally Handcrafted
with time-honored skill.

Heather has developed four distinct styles for her fine art portraits: Enduring Moments, Environmental, Modern Classics and Fine Art Black & White. Combining time-honored artisan skills with the advances of modern technology, Heather masterfully blends the techniques of the Old Masters with today's resources. Using the camera as the first step in the creation of her portraits, and using a variety of mediums, paints, dyes and papers, she creates fine art portraits that reveal the personalities of each of her subjects and stir the emotions of all who see them.

Enduring Moments

The delight of laughter, the quietness of a special book, a tea party between sisters, a game of Rook on the floor, a family picnic in the garden, a shared bottle of wine. These are experiences that make us smile.

Our Enduring Moments Portraits celebrate your special relationships. The innocence of a child and the nostalgia of a parent, mingled with rich colors and dramatic lighting, take you to a place of love and joy. Our Enduring Moments become treasured keepsakes that capture your imagination and take you back to that moment again and again.

Portrait of the Holliday Family, 40 by 30, Mixed Media

Portrait of the Pannell Family, 60 by 40, Mixed Media

Environmental

The farm where you were raised. The creek where you fished.
The campus where you met. The house you proudly built.
The places that bring a flood of memories and peace for our soul.
HOME.

These are the places that help tell your story. This is where your family's memories were created. A natural choice for your family's portrait. After all, it's both the setting and the frame of your family's story...let it be a part of your portrait masterpiece.

Modern Classics

Iconic, timeless and traditional, these never go out of style. Our Modern Classics Portraits will increase in value over the years. Inspired by the magnificent portraits of Rembrandt, Sargent and Gainsborough, these portraits combine classic techniques with your family's story and the style of today. Whether formal or informal, a child or group, a bride, a high school senior or an executive portrait, these portraits secure memories from each chapter of your life.

Our Modern Classics last a lifetime and beyond.

Fine Art Black & White

His expression. Her delight. That face. The emotion in your relationships. These touching connections become part of who you are; they help define you.

Magic happens when you view an image without color. It becomes a highly emotional experience as you enjoy a connection with the subject that is undistracted and pure. Combining soft light and a dark simple scene focused on your tender expressions, these portraits are a reminder of what matters most: the beautiful faces which define your most personal connections and relationships.

Created exclusively in dramatic black and white, handcrafted and formally presented, our Fine Art Portraits are instant classics: timeless reminders of your family.
