

## Getting Started

All underclassmen will have their photos taken in the fall at their school. The school will start sending out information regarding school picture dates a few weeks before. We will also send out emails with information regarding the date.

***Please Note: If you miss your photo, or have any special needs, you can call the studio and have your photo taken here instead of the school.***

## How to Prepare

### **You want your child to look their best on picture day!**

Here are a few best practices: Make your child stand out — not their outfit. Avoid logos, slogans, big patterns and obnoxious neons. Simple jewelry will always photograph better than statement pieces. Photos will be taken from the waist up so don't worry too much about wearing a dress or heels. If your child wears glasses everyday and is most comfortable in them, then they can absolutely wear them in their photos! We will do our best to prevent glass glare. In the event glass glare happens, we can remove it from your purchased photo.

## Purchasing & Viewing Proofs

We do not send home paper proofs!! Instead, you will receive an email once the photos are uploaded to our website, and your student will be given an access code (If you don't have one, please call the studio and we can provide it to you). From the website you will be able to view, purchase, and select your yearbook photo. Some schools offer delivery to schools, but you will view options at checkout.

***Our Policy: We work hard to ensure that your photos are perfect, but in the event we miss something, we are happy to make it right! However, being prepared for your session is key. If you were unprepared or if you just didn't like the way you looked that day, you may be subject to a re-sitting fee.***
