Preparing for your Selection Appointment

Planning for your Selection Appointment

Relationship Black & White
Pure Moments
Signature Color

lease read carefully before your appointment.

All WALL pieces are custom, hand-printed pieces and are Limited Edition, available only at your initial appointment. Please allow the time needed to make your selections on the day scheduled for your appointment. **Bring anyone with you that will be part of your purchasing decision.** If that person cannot make the initial Selection Appointment scheduled, we suggest you call us and choose another time. We cannot do separate appointments due to our schedule and workflow.

YOUR PORTRAIT ORDER WILL BE PLACED AT THIS SELECTION APPOINTMENT.

Although children are loved here at HG Photography, this appointment should include only the adults involved in the purchase as it is easy to get distracted and children get bored very quickly.

Museum Wall Portraits

Our iconic Black and White Museum Prints are top of the line. Custom printed by Hayward on specialty fine-art archival papers, we then mat them in acid-free 8-ply rag mat that has been carefully selected by us. Each print is registered, comes with a Certificate of Authenticity and is hand-signed by Hayward after a final inspection.

Signature Color Canvas

Our Signature Color Canvas portraits include retouching, full artist enhancements and are then **hand-printed on premier photographic paper**. The back is then peeled by hand and the image is adhered to premium artist's canvas. Many feel these pieces have the look of a painted portrait. These heirloom quality works of art will be shared from generation to generation.

Small Portraits

This line was created to accommodate purchasing gifts for family and friends.. Creative uses for our portraiture along with lower price points allow for any budget.

May we suggest...

You may wonder...

Our "Suggestions" simply mean we put together a plan on your portraits to share with you at your Selection appointment.

Hayward's unerring flair for knowing which images will look the best when printed is a great advantage for our clients. After all, who would be better able to visualize the final product?

You will certainly be making the final decisions, but we know it is helpful to have the "Artist's" point of view to cut through the clutter.

*Y*our Selection Appointment is the time set aside to make **ALL** of your purchase decisions. We allow plenty of time (60-90 minutes), so please schedule your calendar accordingly. Remember, if anyone else is needed to make your purchase decision, please pick a time when they can be here with you. Also, much as we love children here at the studio, you will find it easier to concentrate if you don't bring young children to this appointment as they often become restless.

Finally, payment for your portraits will be due at the Selection Appointment. Your order will be complete approximately 4 to 6 weeks after the Selection Appointment.

We have built Hayward Gaude Photography on a reputation of ABSOLUTE excellence in printed photographic portraiture. Our portraits are created to be displayed as fine art in your home, no matter what the size, so you won't see us offering "digitized" images for screen savers, coffee cups or mouse pads. At our studio, it IS all about the printed portrait that you will treasure and pass down from generation to generation.
